

Yacht Transport

Transporting a yacht is not as easy as it may seem. Most of the time being able to just drive it to the new location is not possible and you will have to use a yacht transport service. Yacht transport companies are starting to become more popular, offering their services worldwide. The market is becoming oversaturated and prices/quality is all that matters.

Doing a yacht transport carrying many large boats across land. However, it is usually preferred to sail the boat to the new destination, it is not always possible. Therefore, it may become a fact that you will need to perform a yacht transport by truck and trailer. A lot of trucking companies will also offer a yacht transport service and use some of their specialty equipment to do the job efficiently.

The biggest issue with transporting yachts via land is getting the yacht out of the water and placed onto the trailer. Size limits for yachts which can be placed on trailers is usually 100, 000 pounds of weight, with dimensions of 18 feet in height and 20 feet in width. This is based on the weight permitted on bridges and highways. Although, you may be able to get the yacht removed from the water and placed onto the trailer with a crane if the dock facilities offers this kind of service.

Also before performing a yacht transport, there are quite a few things you have to do to get the yacht prepared for the transport like secure any loose items in the yacht, latch the doors, and etc.

We are proud to offer you our great advice on how to pick the best boat transporting companies available and our service doesn't stop there. By filling out the application below, we can provide you with quotes from the best shipping companies in the industry. The results will usually be sent to you by e-mail or phone within 24 hours.
